

Hill Country Underground Water Conservation District
Permitted Well Application
Municipal Use

*508 South Washington
Fredericksburg, Texas 78624
Phone #830.997.4472; Fax #830.997.6721*

PERMITS ARE ONLY ISSUED TO THE OWNER OF THE PROPERTY WHERE THE WELL IS OR WILL BE LOCATED.

Instructions: This application is used for a permitted well for municipal use. Municipal use is water used in municipalities or subdivisions serviced by a retail public utility.

The application must be completed for the Board to consider at their board meeting. Faxes will be accepted, however the District must receive the original application within 10 working days from the date the fax was sent. An application fee in the amount of \$250.00 and deposit fee in the amount of \$100.00 must also accompany the permit application, however no deposit fee is required if the well has already been drilled. The deposit fee will be refunded to the applicant when all required well information is supplied to the District or if the application is denied both the application fee and deposit fee will be refunded.

Please Complete The Following:

1. Applicant Data:

A. Name:

Municipality Water or Retail Public Utility:

Representative Name:

B. Address:

Mailing Address: _____

C. Telephone Number: _____ Alternate Number: _____

2. General Information

A. State the size of the following areas:

1) The total acreage within the corporate boundary of a municipality or retail public utility: _____

- 2) The total acreage of those lots identified in a platted subdivision which will be added to the existing service of the servicing municipality or retail public utility: _____
 - 3) The total acreage, based on 1/2 acre per connection of a retail public utility outside municipal corporate boundaries within the District: _____
 - 4) Contiguous area on which the well is located: _____
- B. State the last five year average annual amount of water used by the municipality or retail public utility: _____
- C. State all presently owned (developed and/or undeveloped) sources of water available for the amount cited on 2B:
- 1) Groundwater _____ acre feet per year
 - 2) Surface _____ acre feet per year
 - 3) Treated _____ acre feet per year
- D. State the amount of additional water over the amount given in 2B that is requested for in this permit: _____
- E. State the total number of existing wells used to provide the amount of water in 2B: _____
- F. State the total number of new or existing wells to be used to provide the amount of water requested in 2D: _____

3. Well Location Information:

- A. Property Address and/or general direction of existing or proposed well(s): _____
- _____
- _____
- B. Location and use of produced water:
 Attach a map or plat drawn on a scale that adequately details the proposed project and show the actual or anticipated location of the existing or proposed well(s).
 Show the exact boundaries of property.

4. Location of Adjacent Permitted Wells:

With assistance from the District, attach a map or plat drawn on a scale that adequately identifies all permitted wells within a one-mile radius of the proposed or existing well.

5. Water Conservation Plan

Current per capita water demand _____ gal/day.

Please attach all adopted water conservation and drought management plans along with what water conservation goals permittee has established, and what measures and time frames are necessary to achieve the permittee's established water conservation goals.

6. Leak Detection

A. Date of last leak detection program:

B. Percent of leakage:

C. Frequency of leak detection program:

D. Method used in leak detection:

E. Attach any leak detection program.

7. Texas Commission On Environmental Quality (TCEQ)

Have plans been submitted to TCEQ for proposed community water system?

yes no

If yes, has approval been received? yes no

8. Other:

If the water is to be resold to others, attach a description of the service area population, metering, leak and repair program, is this a platted development, delivery and distribution system including number of connections, information on customer's water demands (per capita water use), water use data, wastewater data, and water conservation measures and a water conservation and drought or emergency water management plan identifying trigger conditions and means of implementation and enforcement:

The District shall determine whether the application, maps, and other materials comply with requirements of this rule. The District may require amendment of the application, maps, or other materials to achieve necessary compliance.

Permit to drill a well is valid for 6 months only from date of approval. Permits to drill a well may be extended upon reasonable cause for an additional six months after which time the application process must be re-initiated.

I, the undersigned applicant hereby certify that I have read the foregoing statements and, to the best of my knowledge and belief, all data therein contained are true and correct and complies with all District Rules adopted on October 5, 2004.
